Subject: Request for Information

Dear Ms Pollany,

I am writing to re-send a request for information which was originally submitted on the 22nd September 2011 for which the response is now overdue. The request was originally sent to peter.franzmayr@bmvit.gv.at he responded to us asking for a version of our request in microsoft Word format (we had sent it in PDF format) I sent him the Word version however we have had no further response. I understand that you would now be the person to deal with the request.

I hope that you are now able to respond to the delayed request, please do keep me up-dated.

For an example of the way in which we hope you are able to answer our request, please see the excel database in which the Finish government recently released similar information to another civil society organisation, <http://www.formin.fi/Public/default.aspx?contentid=233396&nodeid=15145&culture=fi-FI> . We hope that you are also able to make available to us a database of information relating to the planes listed in the original request attached. We will have a partial translation into English of this database available in a week, please let us know if you would like to see it in order to help you respond to our request.

Please do not hesitate to contact me for any clarification on the above,

Regards,

Lydia Medland
