24 April 2013 No. MC-3/11315

Dear Inna Zinovyevna:

The Department for Issues of Citizenship of the FMS of Russia has reviewed your application from 04 March 2013 on providing information on detention of minors to various special facilities of the Russian Federation designed for placement and confinement of non-citizens, and on number of persons accompanying them.

We inform that , for readmission needs, there are three special facilities: the federal public institution of the FMS of Russia "Readmission Center, Pskov City", the federal public institution of the FMS of Russia "Don Readmission Center", and the federal public institution of the FMS of Russia "Bolshevo Training and Readmission Center".

In 2011, 1 minor together with mother, a citizen of the Kongo Democratic Republic, readmitted from the Republic of Poland, was confined in the federal public institution of the FMS of Russia "Bolshevo Training and Readmission Center".

Besides, the FMS of Russia has three centers for temporary placement of asylum seekers, persons winning refugee status, and persons provided with temporary asylum. Those are: the federal public institution of the FMS of Russia "Ocher migration center", the federal public institution of the FMS of Russia "Goryachy Klyuch", and the federal public institution of the FMS of Russia "Serebryaniki migration center". As for April 17, 2013, there are 17 minors placed in these centers with families. Actual legislation does not restrict freedom of movement for asylum seekers in the Russian Federation.

We do not dispose other information you request.

Yours sincerely,
(signature)
