Dear Morgane Dussud,

Please find below the answers of request for information regarding police equipment and training for protest situations.

1. Police Activity law governs the use of equipment at the disposal of police forces.
2. Order of Minister of Interior (9 March, 2005 No 1V-67, Žin., 2000, Nr. 90-2777) regulates what kind of types of equipment police forces permitted to use.
- 3 We regret to inform that we can't provide answer in question 3, because these information or data is only possible for law enforcement institutions.
4. Lithuanian Police School organizes trainings about police tactics. Use of equipment is a part of training mentioned before.
5. There is no any evaluation report complied on policing of protest in the past five years.

Kind regards,

Ingrida Lamanauskiene
